

Fire Door Policy

The Acceptance / Rejection Of Any Flame Retardant System To Upgrade Internal Doors To UK Fire Ratings Ultimately Rests With Your Building Inspector

There Are Certain Unscrupulous Companies Who Claim Their Aftermarket Flame Retardant Treatments, When Applied to Ordinary Panelled Doors Meet The Fire Resistance Criteria Of B.S. 476 Part 22

Customers Should Acquaint Themselves With These Claims & Any Supporting Documentation Implying Conformance To The Relevant UK Standard Before Purchase,
In Particular, Customers Should Again Familiarise Themselves With Discreet Disclaimers/ Statements & Self Certification Issued By Some Companies That Contradict & Negate Any Previously Issued Documentation Implying Conformance To Any Acceptable Fire Rating Standard

Our Open Policy

Flametect C-WD Is Designed & Tested To Impart Flame Retardant Properties To Most Timbers & Timber Related Products Used In Construction & Decorative Products

Although Flametect C- WD Possesses Excellent Flame Retardant Properties On Timber & Timber Based Products & Is Tested To & Performs To :-

- BS 476 Classes 1 & 0 (UK)
- BS EN 13823 Class B (Europe)
- Underwriters Laboratory 723 / NFPA 255 Class A (USA)

Along With Most Other Topical & Impregnation Treatments From Most Other Manufacturers Flametect C-WD Should Be Regarded As Being Unsuitable For The Upgrade Of Most Internal Doors (Especially Panelled Doors)To Any UK Fire Standard

The Exceptions Are :-

- Solid Billet Or Compressed Core/Wooden Veneer Doors In Excess Of 19 mm Thickness
- Rustic Type Doors Constructed Of Timber Strips Again Of A Minimum Of 19 mm Thickness
- Older ,Well Constructed Panelled Doors With A Typical Panel Thickness In Excess Of 12 mm

Compliance / Conformance

In The UK The Only Acceptable Proof Of Conformance To A Standard, Is the Issuance Of A Test Certificate To That Effect By A UKAS Accredited Test Facility Who's Scope Of Testing Includes The Relevant Test **To The EXACT Standard Required For The Application According To Current Building Regulations & Not to Any Company's Self Certification Of Or Alternative Opinion Of What Standards Should Apply**
